Mr. and Mrs. Sonper of Brooks and Mr. and Mrs. Garity of Mossleigh, were Thanksgiving visitors at the home of Mrs. D. G. McNeely.

Miss Myrtle Meehan of De Winton, visited with her aunt Mrs. F. McNeely and other friends in the district during Thanksgiving holidays.

Mrs. Earl, Violet and Victor with Harry Meehan spent Sunday visiting at De Winton.

Canadian Rockies Pioneer Passes

Tom Wilson is dead. Pathfinder, trail-blazer, hunter, trapper, prospector, Indian trader, wise adviser and dependable friend, oldest and most celebrated of Canadian Rockies guides, the last of the pioneers, Tom Wilson has gone to the Happy Hunting Grounds and if there are no mountains, no deep blue lakes hidden by curtains of trees, no difficult passes to find and travel, no new peaks to conquer, will scarcely be Paradise to him. He has gone; we shall not look upon his like again.

His life work started as far back as 1851 when he came with the Canadian Pacific exploring and surveying parties through the Rockies. In 1882 he set the foundations of his later fame with his discovery of Lake Louise and Emerald Lake, following it up with the blasting of the foot trail up the Yoho Valley in 1884.

In his own words he has lived the history of the western mountains. It was fitting that he should be present at that fateful day of November 1932 that saw the completion of the Canadian Pacific trans-continental line across the Dominion from the Atlantic to the Pacific. Nor was he the least of the great men who there assembled.

In 1884 he made his discovery of Lake Louise accessible by blasting a trail to that beautiful spot. In 1891 he took his first party to camp at the base of

Mrs. R. H. Bishop entertained at three tables of bridge on Tuesday afternoon. Mrs. G. Jones won high honors and Mrs. Shouldice, Sr., the consolation. The Halloween decorations and autumn flowers gave the room a pleasing effect. Dainty refreshments were served.

The W. A. Meets at the Home of Mrs. Liesemer

The regular monthly meeting of the W. A. was held at the home of Mrs. E. L. Liesemer on Thursday, Oct. 19th. There was a large attendance of members and visitors.

The meeting was opened by the singing of a hymn "Bringing in the Sheaves," followed by the Lord's Prayer in unison.

Mrs. V. M. Gilbert read a passage of scripture.

The business was then dealt with and it was decided to hold a fowl dinner at Horning's Hotel on Saturday evening, Nov. 4th. Various committees were appointed and further announcements will be made.

The meeting was brought to a close after which everyone enjoyed a couple of contests.

Mr. R. H. Bishop winning the prize.

Launch was served by the hostess assisted by Mrs. R. Moir.

Junior U.F.A. Notes

Mr. and Mrs. Dwight Richards were Calgary visitors on Monday.

P.-T.A. Decide to Serve Hot Lunches Again

The regular meeting of the P.T.A. met at the home of Mrs. E. L. Lowendorn on Monday evening, Oct. 16th, with a very encouraging number present.

The meeting opened by singing "O Canada". After a lengthy discussion on various business matters, the members elected the following officers for the coming year:

Pres. Mr. E. Lowendorn, Vice Pres. Mr. H. McCullough, Sec. Mrs. R. Hates.

Treas. Mr. R. Sharpe. Directors—Miss Spencer, Mrs. O. Larsen, Mrs. G. Jones, Mrs. W. Service, Miss Jennijohn.

It was unanimously decided that the work of the hot lunches should be carried on as in previous years. In order to give all parents and ratepayers a chance to donate towards this worthy work you are asked to leave your contributions with Mrs. Mason or notify Mrs. Hall, convener of hot lunches, of what and at what time you will be able to give. The following items are needed: milk, canned tomatoes, navy beans, potatoes, eggs, sugar, pork, beef, vegetables, or cash.

The W.A. of the Cluny Unit of Church will hold their annual Chicken Supper in the Ross Building from 5 to 7 p.m. on Saturday, Oct. 28th. Following the supper the Hassar players will present "Mary's Calvary".

A dance will be held in the Queenstown Community Hall on Friday, October 20th, under auspices of the W.L. proceeds in aid of the Queenstown swimming pool.

Another dance with Darcy and His Orchestra supplying the music will be held in the Mossleigh Community Hall on November 3rd.

To the Electors of the Village of Arrowwood

As you are aware, we have been in the Hotel business here during the past nearly six years. It has always been our aim to run a first-class house.

Owing to conditions which are beyond our control, it has been very difficult to carry on for the past three years. Travellers, who have been practically our sole source of income, are about all taken off of the road.

Under these adversities we are, on the 24th inst., appealing to the people of Arrowwood to support us in the application for a beer license, and do not consider we would be the only ones, who would benefit, should we be successful in obtaining a majority vote.

There is no question but that every Town and Village should have the same facilities for their residents and travelling public, otherwise they are at a distinct disadvantage.

The leading business men of Arrowwood are agreed that several hundred dollars worth of business is lost to this Village every year through Arrowwood being denied this one asset which is enjoyed by all the Villages adjoining us.

Let's make Arrowwood a real live Town. Every person we bring here to transact business means just that much more for every citizen living here. The property owner benefits by the sale of more goods, and the property owner's assets are increased. There is always more chance of getting a better price and a ready sale of your holdings by having them in a busier locality.

Thanking you for your support on the 24th,

We are,
Yours very truly,
A. and D. HORNING

Political Schools

Hon. Vincent Massey, president of the Liberal Federation of Canada, started something when he adopted an idea which has been in operation in Great Britain for a number of years and inaugurated the Liberal Summer Conference held at Fort Hope, Ontario, in September. Ontario Conservatives quickly grasped the same idea and followed with a Conservative Summer School at Newmarket. Neither of these gatherings were of a partisan character, nor were they held under the authority of the official party organizations. They were round table conferences for the study and frank discussion of political, economic and social problems. No decisions were formally recorded, nor were resolutions adopted.

Inasmuch as the Liberal Conference was a Dominion-wide gathering, while the Conservative School was an Ontario gathering, and further as the Liberal Conference had been promoted some considerable time in advance of its meeting, Mr. Massey was successful in securing the attendance of a number of leaders in the political and economic life of Canada, but men of standing and influence in Great Britain and the United States, including Sir Herbert Samuel, leader of the British Liberal party, and Mr. Mokey, the chief of the Roosevelt "brain trust." The Liberal Conference, therefore may be regarded as an indication of the character of these gatherings.

That conference was attended by many Conservatives and by supporters of the C.C.P., as well as by Liberals. Conservative views and Liberal views were just as freely expressed as Liberal views. As a matter of fact, the Liberal Conference and the Conservative School exchanged speakers, while men of Socialist views and leanings addressed both Conference and School. In a word, it was a coming together of men and women keenly interested in the current problems of the day as they affect Canada and the world of which Canada constitutes a part. They came together to study these problems, to obtain expert opinion in regard thereto, to examine and criticize suggested remedies and policies, and to frankly and freely exchange views thereon.

It was a school of citizenship in the highest and truest sense designed to engage some of the best thought of the country in a searching analysis of existing conditions and of suggested remedies designed to overcome the weaknesses and evils existing in our economic life and social order, and the part which governments must take in removing such evils and promoting the continued onward march of civilization and a progressive betterment in our whole standard of life and living.

So successful indeed did these gatherings prove to be, that nothing but praise has been voiced by the press of Canada regardless of political affiliations. These conferences or schools are to be continued next year, and the probability is that such gatherings will be organized to be held in different sections of the Dominion in order that an opportunity may be afforded to a much larger number of earnest citizens to attend and participate in them.

Equally important—perhaps even more important—is another development arising out of these initial gatherings, and that is the formation in many centres across Canada of Discussion Clubs in which men and women deeply interested in public questions and matters affecting the public welfare are meeting and giving earnest heed and study to such matters.

Nothing but good can result from such study carried on quite apart from the partisan controversies and excitements of election campaigns. Speakers before such Discussion Clubs know that every word they utter will be fully weighed; that the facts they submit will be open to investigation; that the suggestions they advance will be subjected to the most searching tests of soundness, practicability and worth. Special pleading will be at a discount; emotionalism will not convince; but in the freedom of round table discussion, and in what might be termed the clash of intellects and authoritative opinion, knowledge will be advanced.

The inevitable result of such Schools and Discussion Clubs must be to raise the tone of public discussion in Canada. Political platforms of the future will have to be drafted to be something more than mere catch-catch-all devices; if they are not they will fail to impress and attract the voters. Members of Parliament and of the Legislatures will find it increasingly necessary to keep themselves well informed, fair and convincing in debate, rather than merely relying in gaining some party advantage. There will be a more general recognition of the fact that politics, after all, is not something ignoble and to be shunned, but rather that politics is, in fact and reality, the science of government.

It is to be hoped that this movement for a better educated, more enlightened citizenship will spread far and wide throughout Canada; that it will be encouraged and promoted by all political parties and groups, and that people of every variety and shade of political and economic thought will gather together in earnest study and frank but friendly discussion of what, in the final analysis, are the common concerns of all, in which the interests of all are inextricably bound together.

Sir Percy Lake Makes Plan For Better Treatment Of Veterans

Promises of governments to soldiers they would not suffer when they returned to their homes had hardly been fulfilled was the feeling among veterans according to General Sir Percy Lake, of Victoria, en route home after attending the British Empire Service League conference in London.

Referring to placing jobless ex-servicemen in relief camps, Sir Percy said Saturday he thought these men should receive preferential treatment. The veterans should have a chance to make a little money so when they are out of work they would not be destitute on the streets, he added.

Scientists Return From Long Sojourn In The North

"Aurora borealis flashing directly overhead at Fort Rae never came low or to the earth's surface than 55 miles distance during their observations." Dr. J. M. Stagg, leader of the party of British scientists who have spent the last 13 months at Fort Rae, North West Territories, studying northern weather conditions, made this statement.

Dr. Stagg flew from McMurray at last coming out to ship to the continent the transportation of some six tons of valuable instruments used by the scientists in their investigations. Five other members of the party came out some time ago.

Until the large volume of data gathered during the 13-month stay in the north had been studied it was impossible to state the result of their observations. Dr. Stagg said. Some 18 months would be required before the data could be placed in publishable form.

Engine Lights Attract Foxes

Animals Killed On Railway Tracks In Northern Manitoba

The engineer and fireman of Hudson Bay Railway locomotive No. 2133, have a novel way of capturing the elusive fox.

Running up from Wabowden to Gilliam they ran over two of them, one across at Mile 288, and the other a red fox at Mile 296 a half hour later. They saw three others on the tracks, but these did not wait until the engine reached them.

When taking the freight from Gilliam to Wabowden they ran over a third one. The animal, dazed by the headlights, stood badly across one of the rails, staring at the oncoming train. This occurred at Mile 250.

The carcass, cut in two, was picked up the morning after by section men at work on the line. The fox was a cross with a handsome pelt.

Lacharrie says that at night the foxes sometimes run along the track in front of the train as far as one and two miles. The strong lights of the engine hold an attraction for them.

Discovered By Accident

Beautifully Painted Walls Of Egyptian Tomb Bared By Workmen

Beautifully painted walls, probably belonging to a Greco-Roman tomb of the first century, were bared by workmen who were leveling ground for a new football field at the Mustafa barracks for British forces here.

Only the arched gateway, constructed of well-painted natural rock, was covered. The wall paintings antiquaries attribute the rest of the edifice is intact because it is in the highest quarter of the city where it has been less injured by the least likely. It is at the site of an ancient Roman camp.

A frieze of exquisitely carved human figures on horseback run round the top of the wall.

Usually archaeological discoveries of Alexandria are of little importance because of the poor state of preservation. Ancient Alexandria was razed many times and because of the restricted space the new city was at ways constructed on the ruins of the old. Mustafa, however, stands apart from the rest of the city and has been a long time in the making. It is a city of the future.

German Limit Sunday Meal

Simple Dinner Will Leave Extra Cost For Relief

A well-disciplined German public has limited Sunday dinner to a "hot pot" without trimmings, soup, dessert and fruit, costing no more than 50 pfennings (about 17 cents).

The gastronomic restrictions were in accordance with a government injunction putting each German on his honor to limit his eating and turn over the balance of what the usual Sunday dinner would have cost to the winter relief fund.

No Race Prejudices Influence Children

Boys And Girls On Montreal Playgrounds Mingle Agreeably

French, Polish, Ukrainian, Lithuanian and Russian children mix freely and gaily at the Hochelaga ward playground in Montreal, and whatever the race prejudices that exist in the older generation find no echo among the boys and girls, reports a woman supervisor.

The team work among so many nationalities is something worth noting," she writes. "The spirit improves at the season progresses. The playground is truly appreciated in our district, as voiced by the children themselves. The parents are grateful too, but the difference of languages make it difficult for them to express their recognition. Actions, however, speak louder than words, and the fact the teacher is sent flowers, or vegetables from the garden, or Polish bread and victuals of different variety bespeak thanks."

STEWED CUCUMBERS

Four large cucumbers; 1 teaspoon salt; 1/2 teaspoon pepper; 1 tablespoon butter; 1/2 cup sweetened condensed milk; 1 tablespoon flour; 1/2 cup prepared mustard; juice of 1/2 lemon. Pare cucumbers and cut in slices 1/4 inch thick. Remove seeds from cucumbers. Place in boiling water and cook 15 minutes or until tender. Drain. Add salt, pepper and butter. Return to fire. Cover and cook for five minutes. Blend together sweetened condensed milk, flour, mustard and lemon juice. Add to cucumbers. Cook until mixture thickens, stirring constantly. Serve hot. Serves six.

Advocates More Production

Sir Herbert Samuel Out Of Sympathy With Present Policy

Increased world consumption of commodities, the advocate of production, should be the aim. Sir Herbert Samuel told a Canadian Club luncheon audience at Ottawa. With the policy of decreased production he had no sympathy.

"Surely this is a mad policy," he said. "Statesmanship today is on the wrong lines." He indicated the path, which, he felt, would lead toward prosperity. Production should be encouraged, consumption stimulated, trade channels should be opened, currency stabilized and peace and tranquility developed.

Umbrellas Left On English Railway Trains Loaned To Passengers

The joke about the borrowed umbrellas is a very ancient one, but the southern Railway in England, is turning it to serious account. Thousands of umbrellas left by careless travellers come to a railway company in the course of a year. Arrangements are in hand whereby passengers on rainy days will be able to borrow these forgotten gumps at certain suburban stations on production of their season ticket and a payment of twopence.

With about 12,000 miles of lone sailing behind him and many thousands of miles more in front of him, he carries out his plan to cross the Pacific. Capt. A. Hansen, Forvik, Norway, landed at Toronto recently in his 36-foot Norwegian pilot boat after sailing from Bergen 15 months ago.

Capt. Hansen, after clearing Esger, touched upon the English and European ports and then sailed to the Canary Islands. From there his long-ent run was to Miami, Fla. which he made in 43 days, averaging nearly 100 miles a day.

His dog, Mite, and cat, Sailor II, comprise the crew. Capt. Hansen left for Halifax and later hopes to make for Africa.

Cum-Dipped Tires

The Reason Firestone Leads

Year after year **Firestone** has led the way in giving our owners extra tire values to save them money. Now Firestone gives you an amazing new guarantee which fully protects you for twelve months against any condition that may render a Firestone Tire unfit for further use as a result of blowouts, cuts, bruises or any other road hazard excepting punctures or running the tire flat.

For this alone it would pay you to buy Firestone — but, in addition, Firestone is the only tire that can give you all these extra values:

- 1 — Two Extra Cords Under the Tread at NO EXTRA COST
- 2 — Gum-Dipped Cords.
- 3 — Balanced Construction.
- 4 — Non-Skid Safety Tread.

As a result of these extra features Firestone gives 25% to 40% longer tire life—no extra cost.

Low Priced Tires. If you want a low priced but dependable tire, ask for the Firestone Oldfield. As good as most first line tires, but costs 20 per cent less. Made by Firestone and guaranteed for 12 months.

Church of the Brethren Bible School

(Continued from page 1)

Life is designed to increase interpretation for worship and aid to aid in leading others in worship. This is an elective Leadership Training unit. Text costs 25c. Taught three hours per week by John Wiscand.

Bro. L. C. Baker will use several periods to show the relation of Astronomy to the Chronology of the Bible.

Considerable attention will be given to sacred music. Instruction will be given in note reading, conducting, and chorus work.

No tuition will be charged. The local committee will do everything possible to arrange for comfortable quarters at very low cost. A small incidental fee, \$2, will be asked, to pay necessary expenses of the school. A music fee of \$1 may be asked of all pupils in music classes.

This school should be of special interest to every one who has any spare time during November and December. Acquaintance with the Bible and its use, for self and others, are the principle aims of the school. The Bible will be used very largely as a text. No one should stay away because of lack of education. On the other hand the work will be sufficiently intensive to challenge those more favorably

situationally. Inquiries will be welcome. Suggestions also.

The sooner we know your intentions the easier it will be to prepare for your comfort. Also to know what texts will be needed.

Students should not undertake too much. Thoroughness is important. Much study will be necessary.

"Blessed are they which do hunger and thirst after righteousness: they shall be filled."

We welcome students of any denomination: Only one course relates in particular way to the Church of the Brethren.

We Should Be Grateful

All around us the whole world is in a turmoil. To the south there are strikes, riots, floods and what not and abroad there appears to be a dark war cloud that is appearing on the horizon. Here some of us grumble because we cannot have all the things we wish, but we are all at peace and there is no suffering.

Anti-freeze means no freezing in your radiator, but it means more. When your car is filled with anti-freeze you won't have to bother to drain or refill all winter, or stage a blanket throwing and pulling contest for your radiator. Above all to drain and refill with anti-freeze now means you can say to your neighbor, "I know my radiator is safe."

A farm cannot be more efficient that its equipment.

Not only does a washing machine lift hours of labor from the housewife's shoulders but it does the family laundry at a minimum cost. Maytag Washers are known the world over for their economy and efficiency. We can supply your needs now.

Lecturer (who has spoken for two hours): "I shall not keep you much longer. I am afraid I have spoken at rather great length. There is no clock in the room and I must apologize for not having brought a watch with me."
Voice: "There's a calendar behind you, Mister."

GOODRICH COMMANDER

WORLD'S LOWEST PRICED QUALITY TIRE

There have been too many cheaply constructed tires flooding the market—tires built to a price and not worth the money. So Goodrich built the Commander to give a quality tire to the man who must buy at a low price.

The Goodrich Commander will give you long life, durability, economy. It has an excellent non-skid tread. It gives really amazing value at rock-bottom prices.
